DETAILED ACTION

1. Claim 21 is presented for examination. Applicant filed an amendment on 10/29/2003 canceling claims 1-20 and 22-37. In light of Applicant's amendment of claim 21, the Examiner withdraws the grounds of rejection of claim 21 based on 35 USC 101. In light of the amendment to claim 21, new grounds of rejection of claim 21 are established in the instant office action as set forth in detail below.

Response to Arguments

2. Applicant's arguments with respect to claim 21 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 21 is rejected under 35 U.S.C. 103(a) as being unpatentable over Schneider, Pub. No. 2002/0103688 in view of information available at the web site of the Center for Farm Financial Management (hereinafter Marketeer).

As to claim 21, Schneider discloses A new computer-implemented method for providing integrated financial management services to a crop producer (see abstract) comprising:

Art Unit: 3626

providing crop insurance services to the producer, including an evaluation of the proper level of crop insurance where the producer is neither overinsured nor underinsured such that the proper level is used by the crop producer (see paragraph 17);

providing financial management services, including an ongoing analysis of break even points and profitability, the ongoing analysis based in part on the proper level of crop insurance (see paragraph 16 and paragraph 23);

integrating the crop insurance services, financial management services, and marketing services by updating the ongoing analysis of break even points and profitability with the sales contracts executed by the producer (see paragraph 23)

presenting a computer generated output to the crop producer showing results from the integrated financial management services, the results including analysis of break even points and profitability (paragraph 25)

Schneider does not explicitly disclose

providing marketing services, including an evaluation as to the profitability of a potential sales contract based upon current data from the financial management services, such that sales contracts are executed by the producer

However, Marketeer discloses software for developing Marketing plans for farmers to best suit their objectives(see press release). Marketeer further discloses using the software to implement a plan (i.e. ... sold corn and bought calls)(see press release). It would have been obvious to one of ordinary skill in the art at the time of Applicant's invention to include the marketing services software as disclosed by Marketeer within Schneider for the motivation of helping farmers navigate the ups and

downs of volatile prices with a planned marketing approach that best suits their objectives (see Press Release).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- a. "Pictures of Profit" discloses software that analyzes marketing and crop insurance needs.
- b. Information available at the web site of The Andersons Inc. discloses a crop revenue profiler.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
